It is a pleasure to communicate with you and offer a plan for developing a **medical consultation booking platform**. This platform will allow patients to schedule appointments online, check doctors' availability, and receive automatic reminders, ensuring better time management for both doctors and patients.

I offer a reasonable price with a satisfaction guarantee. The proposal is divided into phases for an organized execution and progressive payments.

---

## **DELIVERY AND PAYMENTS**

### **Graphic Design**

- Custom logo for the platform
- Visual identity design
- Promotional graphic materials

**Total payment:** 150.000 colones

To start: 40% upfront. The remaining 60% upon delivery of the final files in PDF format.

---

### **Web Development (Frontend/Backend - Hosting)**

- Purchase of domain [.COM/.NET]
- Backend development with user and appointment management
- Frontend development with an intuitive and mobile-friendly interface
- Implementation of an email and SMS notification system
- Hosting configuration and secure storage
- Creation of accounts for doctors and patients

**Total payment for the website:** 800.000 colones

**Total payment for annual hosting:** 200.000 colones

**Monthly hosting payment option:** 17.000 colones

To begin development, a 40% upfront payment is required, with the remaining 60% due upon delivery of the functional platform on its assigned domain.
